- Emmanuel Macron lancia la sfida a violenza e sessismo con un piano da 420 milioni contro gli abusi sulle donne. Il presidente francese, in occasione della Giornata mondiale dei diritti, definisce il fenomeno «una vergogna nazionale» e promette: l'uguaglianza sarà la mis battaglia. A Delhi, capitale mon-

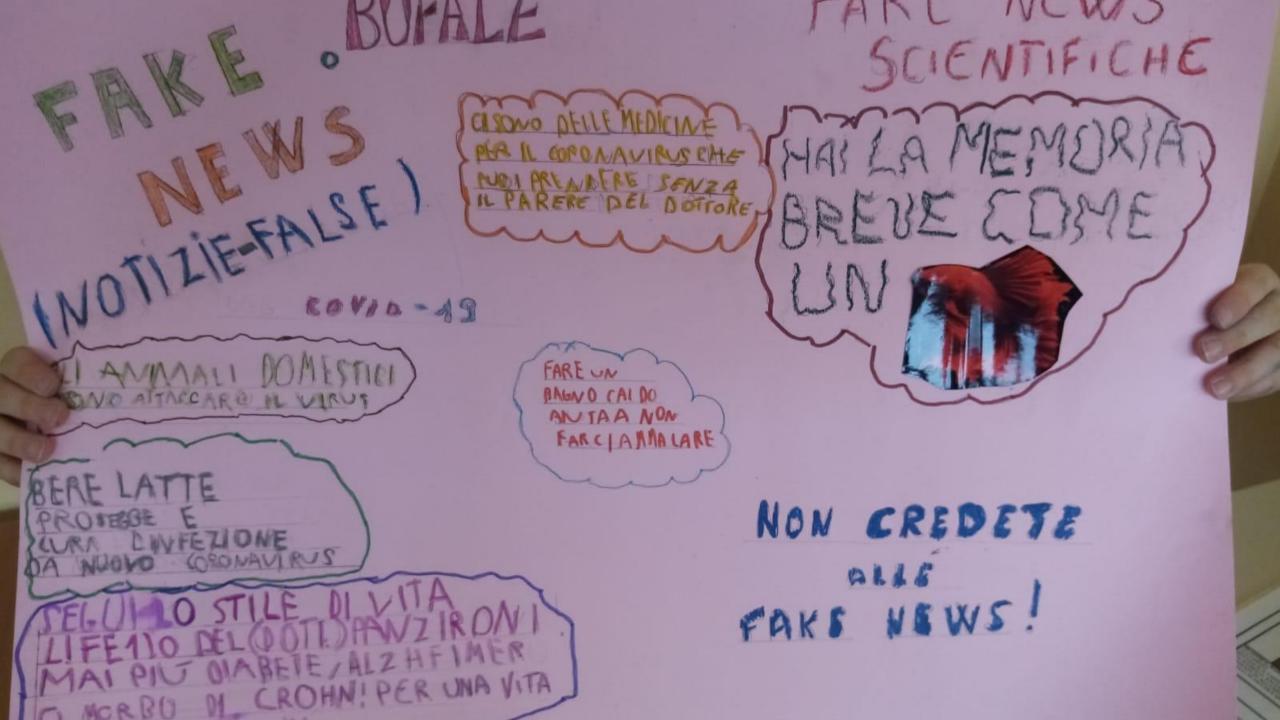

#### HOW TO DEFEND US AGAINST FAKE NEWS?

How do you know if what you are reading is true or false? Here is the mini-guide from the International Federation of Library Associations and Institutions (IFLA):

- 1. CONSIDER THE SOURCE: investigate the publication site, its purposes and if there are contacts for a possible request for information.
- 2. READ MORE IN THE TEXT: don't stop at the often provocative title, read the entire news.
- 3. CHECK THE AUTHOR: do a brief research on the author. Is it credible? Did he do anything else in that area? And above all ... does it really exist?
- 4. CHECK THE SUPPORTING SOURCES: click on the links mentioned in the text and learn more about the topics covered with the sources usually listed at the end of the news.

- 5. CHECK THE DATE: if the news is dated, check that it is not just a distortion or reworking of a past event and ask yourself if it is still relevant today.
- 6. ASK AN EXPERT: consult an authentic or institutional site, ask an expert in the reference area or, if relevant, the good old librarian.
- 7. ASK WHETHER IT CAN BE A JOKE: if it is too extravagant or bordering on absurdity, it could be "simply" satire.
- 8. CHECK YOUR PRECONCEPTS: Consider whether your beliefs influence your judgment (sometimes we believe what we would like to hear from us).

In tempi di menzogna universale, dire la verità è un atto rivoluzionario.
